

Institute for Advanced Research in Science, Bengaluru,  
Indian Institute of Space Science and Technology, Thiruvananthapuram, and  
Kerala State Science & Technology Museum, Thiruvananthapuram,  
jointly offer a short-term course

## Extrasolar Planets and The Search for Habitable Worlds

From discovery of exoplanets, to questions on their habitability, and what the future holds, this short-term course will offer quantitative insights into one of the most rapidly evolving fields in astrophysics."

---

Course Instructor: Dr. Anand Narayanan, Professor,  
Indian Institute of Space Science & Technology, Thiruvananthapuram

When: November 2022, Saturdays and Sundays for 2.5 hours each

Where: Kerala Science and Technology Museum, PMG Junction,  
Thiruvananthapuram.

All sessions will be offline.

Who is Eligible: MSc Physics / BSc Physics (Final Year)

Preference will be given to MSc Physics students.

Number of Enrolments: 40

Registration: Please use this link (<https://rb.gy/g6ubja>) or scan the QR code to register for this open course. There is no registration fee.
